## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Objections*

1. Claim 1 is objected to because of the following informalities: recitations of "*the* surface side" and "*the* upper end portion" lack clear antecedent basis in the claim. Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Limitation of "an engaging portion extending from below to above, wherein the upper end portion of which is,..." renders scope and meaning of the claim indefinite. It is not clear what structure "from below to above" is in reference to. Is it relative to the previously-recited 'bottom' for example? Due to grammatical form and lack of antecedent basis, it is not clear what structures/arrangement is further defined by recitation of "the upper end portion of which".

***Claim Rejections - 35 USC § 102***

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being U.S. Pat. No. 4,497,514 to Moriya.

Moriya '514 teaches Applicant's claim limitations including : a "handle case" – 50, "hand-operating recess" – the opening in 50, "rising wall" – 52, "connected with an operation handle" – 10, a "cover body" – 20, a "hollow" – 56, an "engaging step" – the portion engaged by 38a as shown in Fig 3B for example, an "engaging leg", "engaging portion", "hooking protrusion" – the including 38,38a.

As regards claim 2, structure at 53 anticipates limitation. The law of anticipation requires that a distinction be made between the invention described or taught and the invention claimed. It does not require that the reference "teach" what the subject patent teaches. Assuming that a reference is properly "prior art," it is only necessary that the claims under consideration "read on" something disclosed in the reference, i.e., all limitations of the claim are found in the reference, or "fully met" by it. *Kalman v. Kimberly-Clark Corp.*, 218 USPQ 789.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Pat. No. 5,282,657 to Clinch.

U.S. Pat. No. 5,551,737 to Clavin.

U.S. Pat. No. 6,106,055 to Fischer.

U.S. Pat. No. 6,666,496 to Rettig.
